PREFACE.

THE Publishers of the GLASGOW POST-OFFICE DIRECTORY beg to renew the expression of their thanks for the measure of favour hitherto enjoyed. In the present volume the Local Institutions and Societies may now be considered complete—the Stamp Duties, which in former volumes were abridged, are now given in greater detail—the Registration Districts for Births, Marriages, and Deaths, into which the city has been divided, have been introduced, so that parties can be at no loss where to apply, when circumstances require their compliance with the recent Act of Parliament. The Map of the City has been revised, on which is laid down, among other places, the West-end Park and Buildings. It is to be hoped that these additions, combined with that care and attention bestowed on the compilation of the work in its more important departments, will entitle the Publishers to come before the Public on this occasion with some claims upon their support and patronage.

N.B.—The duties on Foreign Bills, drawn out of the United Kingdom, are to be denoted by adhesive stamps. The amount of duty on the adhesive stamps is impressed on two parts. The Board of Inland Revenue recommend that the cancellation should be on one of the parts, and the other left legible.

If a Foreign Bill payable abroad, and as to which the provision "drawn in sets of three or more" apply, shall be drawn in a single bill, the duty will be the same as on an Inland Bill, and if in a set of two, the duty on each will be the same as on an Inland Bill. This is in accordance with the opinion of the Board of Inland Revenue (see North British Daily Mail, 3d November 1854). But the Board have given an opinion that a Foreign Bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one Inland Bill of the same amount,—that is, if one of the parts have the full duty, the others may be unstamped (see Times, 6th November, 1854). The schedule of the act does not provide for such a Bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed Foreign Bills so drawn, although they may in reality be drawn in the United Kingdom, 17 and 18 Vict. c. 83, § 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty, £100. A person taking such bill must get the whole set, stamped, otherwise he cannot recover on it or make it available, *ib.* § 6. This applies only to bills drawn within and payable out of the United Kingdom.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

PROMISSORY NOTE for the payment of any sum of money by instalments, or for the payment of several sums of money at different days or times, so that the whole of the money to be paid shall be definite and certain, the same duty as on a promissory note, payable otherwise than to the bearer on demand, for a sum equal to the whole amount of the money to be paid.

PROXY to vote in joint-stock company whose shares are transferable ... 2s. 6d.
RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force.

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards, has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being anything formerly due, would not be liable. The Board of Inland Revenue have intimated that they are to regard such receipts as exempted.

Among the exemptions from receipt duty are—

Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.

Letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money. This exemption is repealed by 17 and 18 Vict. c. 83, § 13. The effect of the repeal is, that letters by the general post are put on the same footing as letters delivered or sent otherwise. If they amount to acknowledgments of the statutory description (that is, whereby any sum of money, debt, or demand, or or any part thereof amounting to £2 or upwards, shall be expressed to have been paid, settled, balanced, or otherwise discharged or satisfied, or which shall import or signify such),—given for or upon payments made by or with bills of exchange, drafts, promissory notes, or other securities for money, —they will be liable to the receipt duty.

Receipts written on any bond, mortgage, or other security, or any conveyance,

deed, or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.

Note.—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the grantor is required to cancel the stamps by writing his name or initials on them. Penalty for omission, £10. Penalty for removing adhesive stamps, or using them a second time, or doing any fraudulent act to defraud of duty, £20.—16 and 17 Vict. c. 59, § 3, 4, and 5.

RESIGNATION.—Principal or original instrument of resignation, or service, or cognition of heirs, or charter, or sasine of any houses, lands, or other heritable subjects holding burgage; also instrument of resignation of lands, &c. not held burgage, 5s. Progressive duty, 5s.

SASINE.—Instrument of sasine given on any charter, precept of *clare constat*, or precept from Chancery, or on any wadset, heritable bond, disposition, apprising, adjudication of any heritable subjects not of burgage tenure, 5s. Progressive duty, 5s.

SCHEDULE OR INVENTORY of heritage, or movables, or containing the terms of any proposed sale, lease, &c., or regulations for the cultivation and management of any farm, &c., separate from and referred to in lease, bond, deed, agreement, &c., chargeable with any stamp duty not exceeding 10s.—The same duty as shall be chargeable on such lease, bond, agreement, &c., and where referred to in such, chargeable with a duty exceeding 10s.—10s. Progressive duty, 10s.

SCRIP CERTIFICATE, after 4th Aug., 1853, that is to say, any document denoting or intended to denote the right or title of the holder thereof, or any person to any share or shares in any joint-stock or other company, or proposed or intended company, or any certificate declaring or entitling the holder thereof, or any person to be or become the proprietor of any share or shares of or in any such company, where such certificate, or the right or title to such share or shares shall be, or be intended to be, transferable by the delivery of such certificate, or otherwise than by deed or instrument in writing, 1d.—16 and 17 Vict. c. 63.

SETTLEMENT.—Any deed or instrument, whether voluntary or gratuitous, or

upon any consideration other than a *bona fide* pecuniary consideration, whereby any *definite and certain* principal sum or sums of money, or any *definite and certain* shares in any stocks or funds, shall be settled or agreed to be settled upon or for the benefit of any person or persons, either in possession or reversion, either absolutely, or for life or other partial interest, or in any other manner whatsoever,—if such sum or sums, or the value of such share or shares, together, shall not exceed in the whole £100, 5s.

And if the same shall exceed £100, then for every £100, and fractional part of £100, 5s.

All such deeds which contain any settlement of lands or other property, or any other thing besides the settlement of such money or stock, shall be chargeable with such further duty as any separate deed containing such settlement of lands or other property, or other thing, would have been chargeable with, exclusive of the progressive duty.

And where there is more than one such deed chargeable with any such duty exceeding £1, 15s., one of them only shall be charged with the *ad valorem* duty; and also where any settlement shall be made in pursuance of any previous articles chargeable with and which shall have paid any such duty exceeding £1, 15s., it is not chargeable with the *ad valorem* duty; and the deeds not chargeable with the *ad valorem* duty shall be charged with the duty to which they are liable under any more general description in the stamp schedules; and on the whole being produced, duly executed and stamped, the latter shall also be stamped with a particular stamp for denoting the payment of the said *ad valorem* duty.

Exemption from this ad valorem duty.—Wills, testaments, and testamentary instruments, and dispositions *mortis causa*.

The inventory duty is paid on the whole personal property situated in Scotland, and probate or administration duty on the whole personal property situated in England and Ireland without deduction of debts; but the Act 5 and 6 Vict. c. 79, § 23, provides for a return being given on proof of the constitution and payment of the debts. This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue. If there be any omission in the inventory inferring payment of further duty, an additional inventory of such is required to be exhibited, by 48 Geo. III. c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict. c. 59, § 8, such additional inventory shall be *chargeable only with such amount of stamp duty as, together with the stamp*

duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, *shall make up the full amount of stamp duty*, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate shall be over-estimated, or something improperly included in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original inventory will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory.

LEGACY DUTY.

Legacies, Annuities, Residues, &c.

To children or their descend- ants, or lineal ancestors.....	Duty p. ct £1 0
Brother or sister, or descendant....	3 0
Uncle or aunt, or their descend....	5 0
Granduncle or aunt, or descend....	6 0
All other relations or strangers....	10 0

The husband or wife of the deceased is not chargeable with duty. If the legatee's husband or wife is of nearer consanguinity than the legatee, duty is payable according to such nearer relationship.—16 and 17 Vict. c. 51, § 11.

This duty is payable for every legacy out of the personal or movable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any moneys to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: Also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or movable estate, whether the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy: And also for the clear residue of the moneys to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Annuities are valued for legacy duty according to tables annexed to the Succession Duty Act.

Duty is not exigible on legacies or residues under £20; but if a legatee take two or more legacies under any testament, which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

N.B.—Printed forms and regulations for payment of the legacy duties will be obtained gratis, on application at the Legacy Duty Office, Inland Revenue, Edinburgh; and at the offices of the distributors of stamps in the country.

SUCCESSION DUTY, 16 and 17 Vict. c.

51.—The duty commences on the death of persons dying after the 19th May, 1853, and seems to be imposed on all property, both heritable and movable, passing by death, not liable to the duty on legacies and successions to personal estate upon intestacy—the duty imposed by the Legacy Duty Acts. The duty on *heritable property* is charged on the annual value, after allowance of the necessary outgoings (§ 22), as an annuity for the life of the successor (§ 21), which is to be valued by tables annexed to the act.

PERSONAL PROPERTY is liable to duty according to the value of the succession; and money charged on heritage—*heritable securities*—is chargeable as personalty (§ 1).

RATES OF SUCCESSION DUTY.

Lineal issue or lineal ancestor of the predecessor, £1 per cent.

Brothers and sisters of the predecessor and their descendants, £3 per cent.

Brothers and sisters of the father or mother of the predecessor and their descendants, £5 per cent.

Brothers and sisters of a grandfather or grandmother of the predecessor and their descendants, £6 per cent.

Any other person, £10 per cent.

The husband or wife of the predecessor is not chargeable with duty (§ 18), and if the successor's husband or wife shall be of nearer consanguinity than the successor, duty is paid according to such nearer relationship (§ 11).

The following are also *exemptions* from the succession duty:—

1. Successions from the same predecessor, passing on any death, not amounting in principal value to £100 (§ 18).
2. Any succession of less value than £20 in the whole (*ib.*).
3. Legacies and personal property charged with legacy duty, in respect of the same acquisition (*ib.*).

Note.—The collection of the succession duty will form a branch of the business of the legacy department of the Inland Revenue. Forms of the accounts may be obtained at the Legacy Duty Office, Edinburgh, and at the offices of the distributors of stamps in the country.

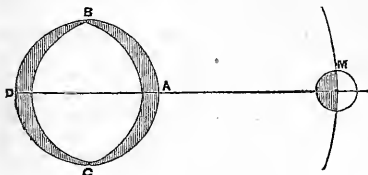

ALMANAC AND TIDE TABLE.

FROM JUNE, 1855, TILL JUNE, 1856.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure:—

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423 second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring

Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1855 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained by addition, as here annexed.

EXEMPLIFICATION AND CONSTRUCTION OF THE PRECEDING
TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place; from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

June 7th, 1856, the sun's longitude is $76^{\circ} 51'$, and obliquity of the ecliptic, $23^{\circ} 28'$

Required the sun's declination at noon.

To the log. sine of sun's longitude at noon, $76^{\circ} 51'$,	9.988460

Required the time of the sun's rising and setting at Glasgow, in latitude $55^{\circ} 52' N.$, longitude $40^{\circ} 16' W.$, on May 15th, 1856.

The approximate time of the sun's rising and setting is—

POSTAGE STAMPS, &c.

As the system of paying Inland Letters has been done away with, the public must use Postage Stamps.

Stamps may be procured at the General Office, Glassford Street, the Stamp-Office, and the several Receiving-Houses.

The Penny Labels,.....at	1d. each.
The Twopenny Labels,.....at	2d. "
The Sixpenny Labels,.....at	6d. "
The Tenpenny Labels,.....at	10d. "
The Shilling Labels,.....at	1s. "
The Penny Envelopes, 24 for 2s. 3d. or 2 for 2½d.	

When the value of Stamps on a letter is less than the amount of the postage to which it is liable, the letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes and Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad* posted with Stamps of less value than the full amount of Postage, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of the Stamps

and the proper rate of Postage; but letters addressed to *places abroad*, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practical cases, to the writer. Stamps are not permitted to be used on letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to newspapers in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected letters are charged an additional postage for each redirection, according to the Prepaid Scale,—except those addressed to any Town and redirected to any place subordinate to, or within the delivery of that Town;

Letters addressed to any subordinate Town and redirected to any other subordinate Town, both being under the same Post Town;

Letters addressed to a subordinate Town

and redirected to its principal Post Town, provided they are redirected by an Officer of the Post-Office.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy.* The purpose of wetting the label wholly, is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters not exceeding *Half an Ounce* in weight, 1d.; *One Ounce*, 2d.; *Two Ounces*, 4d.; *Three Ounces*, 6d., and so on, *two* rates being added for every ounce. Inland letters or packets put *unpaid* into the letter-boxes, are charged *double* the prepaid rates of postage. Letters having an insufficient amount of stamps affixed, are charged with *double* the amount of the difference between the stamps affixed and the prepaid rates.

LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post must not exceed *Four Ounces*. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double* the prepaid rate of postage; if *insufficiently paid*, it will be charged with *double* the amount of the difference between the stamps affixed and the prepaid rates, and *thus charged*, "shall and may be *detained* and *opened*, and, at the option of the *Postmaster-General*, shall be either returned or given up to the *sender* thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination."—*Treasury Warrant*, 22d Oct., 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions may, if *fully paid*, be *detained* and *opened*, or forwarded at the option of the *Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to *unpaid* letters exceeding four ounces weight, and *thus charged*, be either *detained* and *opened*, and returned to the *sender*, or forwarded, at the option of the *Postmaster-General*. The only exception to the foregoing regulations as to size and weight are in the case of,—1. Parliamentary proceedings or addresses to her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. Letters or packets to or from public departments or public offices in Her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the Post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a magistrate.

PRINTED VOTES AND PROCEEDINGS IN PARLIAMENT.—Printed votes and proceedings in Parliament are charged at the following rate between places in the United Kingdom:—

Not exceeding 4 ounces,	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,	3d.
And so on in proportion. Prepayment optional.	

And between the United Kingdom and the Colonies by Packet at the same rates, except the following Colonies, viz., Prince Edward Island, Bermuda, Nova Scotia, New Brunswick, Newfoundland, British West Indies (Turk's Island excepted), British Guiana, Surinam, Cayenne, Bahamas, Belize, Honduras, Guatemala, Malta, Gibraltar, New South Wales, East Indies, Mauritius, St. Helena, the Gold Coast, which are charged 6d. under half a lb., 1s. under 1 lb., &c.—*For Regulations, see Foreign Book Post.*

SERVICE OF PARLIAMENTARY NOTICES.—These notices may be sent through the Post, provided they are

posted on or before the 12th December at the chief offices of London, Dublin, and Edinburgh, or any of the following offices:—Birmingham, Bristol, Exeter, Lincoln, Liverpool, Leeds, Manchester, Newcastle-upon-Tyne, Norwich, Shrewsbury, Glasgow, Aberdeen, Inverness, Belfast, Cork, and Athlone. The words, "Parliamentary Notice," must be legibly printed on the face of the letter, the postage must be prepaid by means of Stamps, and a Registration Fee of 6d. at the time of posting, which may be known by applying to the above offices. Duplicate Lists of the Addresses must be sent with the notices, which must be arranged in the same order as entered on the Lists.

NON-COMMISSIONED OFFICERS, SEAMEN, AND SOLDIERS IN HER MAJESTY'S SERVICE ABROAD.

Letters to seamen and soldiers may be forwarded by Post at the rate of one penny each, under the following regulations:—

1st, The penny must be paid at the time the letter is put into the Post-Office.

2d, The direction must signify the class of seaman or soldier.

3d, The name of the ship, regiment, or corps, to which he belongs.

4th, The letter must not exceed half an ounce, and be upon their private concerns only.

LETTERS FOR SEAMEN AND SOLDIERS IN HER MAJESTY'S SERVICE.

Letters for seamen and soldiers, whether in her Majesty's or the East India Company's military or naval service (while on actual service), may be forwarded under the foregoing regulations, to India, China, &c., *via* Southampton. They can now be sent to India, *via* Marseilles, on payment of the British rate of 1d., besides the French rate of 5d., if under a quarter of an ounce, or 10d. exceeding that weight, or to any foreign country, on payment of the foreign rate of postage in addition to the British rate of 1d. as above.

Letters for seamen and soldiers forwarded by private ships (with the following exceptions:—St. Helena, East Indies, New South Wales, Cape of Good Hope, and Mauritius) are charged 3d. each.

Letters of soldiers and seamen addressed to the United States of America will in future be chargeable with the American rate of five cents, or twopence-halfpenny sterling each, in addition to the ordinary British rate of one penny; the postage of all such letters must be prepaid.

Letters addressed to enrolled pensioners

in Canada are treated the same as letters for soldiers in her Majesty's service.

Warrant officers, either in the army or navy, or masters' mates, or engineers of the navy, are not entitled to transmit letters at less than the usual rates of Postage.

Seamen's or soldiers' letters received from any part beyond sea upon which the said penny has not been prepaid, shall be charged to the receiver with double the rate—viz., 2d. each.

REDIRECTED LETTERS FOR OFFICERS, SOLDIERS, & SEAMEN.

Letters redirected to commissioned officers in the army or navy, subject to foreign or colonial postage, may be forwarded to such officers when removed upon service (whether at home or abroad), and be delivered to them for the same amount of Postage that would have been chargeable had they been delivered at their original address. In all other cases, they are subject to the same regulation as ordinary redirected letters. Soldiers' and seamen's letters are not liable to any additional rate upon redirection.

INLAND BOOK POST.

If a Packet be not sufficiently prepaid, according to its weight, but nevertheless

bear stamps of the value of sixpence, it will be charged with the deficient Book Postage, and an addition of sixpence.

A Book Packet may contain any number of separate Books, Maps, or Prints, and any quantity of Paper, Vellum, or Parchment; and the Books, Maps, Paper, &c., may be either printed, written, or plain, or any mixture of the three. Printed Books, Magazines, Reviews, Pamphlets, &c. (whether British, Colonial, or Foreign), may be sent to the British West Indies, Bermuda, Canada, Nova Scotia, New Brunswick, Prince Edward Island, Newfoundland, Malta, Gibraltar, Ionian Islands, St. Helena, Gold Coast, Cape Town, South Australia, New South Wales, New Zealand, at the following rates:—Not exceeding $\frac{1}{2}$ lb., 6d.; exceeding $\frac{1}{2}$ lb., and not exceeding 1 lb., 1s.; 1s. being charged for every lb. or fraction of a lb.;

And to the East Indies, Ceylon, Mauritius, Hong Kong, at the following rates:—Not exceeding $\frac{1}{2}$ lb., 8d.; exceeding $\frac{1}{2}$ lb., and not exceeding 1 lb., 1s. 4d.; 1s. 4d. being charged for every lb. or fraction of a lb. A Book Packet may contain any number of separate Books, Publications, Prints, Almanacs, or Maps, and any quantity of Paper, Parchment, or Vellum (to the exclusion of letters, whether sealed or open); and the Books, Maps, Paper, &c., may be either printed, written, or plain, or any mixture of the three.

The name and address of the sender, and any words not in the nature of a letter, may be written or printed upon the envelope or cover of the Packet, in addition to the name and address of the person to whom it may be forwarded.

The Books, &c., may be in any binding, mounting, or covering, whether such binding, &c., be loose or attached. In the case of Prints or Maps, Rollers may accompany them; and Markers, whether of paper or otherwise, may be sent with books or other printed papers.

If a Book Packet be found to contain any enclosure which is sealed or otherwise closed against inspection, or any letter, whether sealed or not, the letter or other enclosure will be taken out and forwarded to the address on the Packet, charged with full Postage as an unpaid letter, together with an additional rate, equal the amount chargeable on a Book not exceeding half a pound in weight. The remainder of the Packet, if duly prepaid, will be forwarded without any extra charge.

If a Packet be not sufficiently prepaid, according to its weight, but nevertheless bear Postage Stamps of the value of a single Book-rate, it will be forwarded, charged with a deficient Book Postage, and an additional Book-rate as a fine.

In the event of a Book Packet being posted altogether unpaid, or paid less than a single rate, it will be detained, and sent to the Dead-Letter Office.

No Book Packet, exceeding the weight of three pounds, can be sent to the East Indies or to New South Wales; but on Books, &c., addressed to any of the other Colonies above enumerated, the Postage for heavier packets will increase by two rates of Postage for every pound or fraction of a pound.

Book Packets can only be forwarded to the above British Colonies and Possessions by British or Colonial Mail Packets, excepting in the case of Cape Town, New Zealand, and St. Helena, to which places (there being no direct Packets) Books may be forwarded by Private Ship.

In no case can a Book Packet be sent to the Colonies (except at the Letter Rate of Postage) through a Foreign Country.

Periodicals, unstamped, and not of daily publication, and Pamphlets, if under 16 oz. in weight, and printed in the language of the country from which they are sent, and containing only a single number of any periodical work, or a single Pamphlet in one cover, may be forwarded to, or received from, the United States, France, Prussia, Holland, Belgium, Denmark, and Hamburg; Bremen, Lubec, and Oldenburg, at the following rates, which must be prepaid when sent from this country:—Not exceeding 2 oz., 1d.; above 2 and under 3 oz., 6d.; above 3 and under 4 oz., 8d., &c., 2d. being added for every additional oz. Pamphlets (not being Periodicals), when sent to the United States, must not exceed 8 oz.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—

“GENERAL POST-OFFICE.—On and after 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or which you have every reason to believe contains any of the following articles, viz.:—Any Glass or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder or other Vessel containing Liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags, you will refuse to receive such Letter or Packet.

“In the event of any Letter or Packet being taken in by you, and you do not until afterwards discover that it contains any article as above described, or should any such Letter or Packet be deposited in the Letter-Box, you will not forward it on to its destination, but you will detain it in your office, and inform me by the first Post of the circumstances, stating the precise address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be

taken in this department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“Should any Letter or Packet, containing any article as before-mentioned, not be discovered by the Postmaster at whose office it may be posted, but be forwarded on to its destination, the Receiving Postmaster to whose town it may be addressed, upon discovering, or having every reason to believe, that its contents are such as those alluded to, will not send it out for delivery, but will detain it in his office, reporting the circumstance by the first Post, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it.”

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

All newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers, after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. News-venders only may print their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of Postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

“And be it farther enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper or other publication, hereby privileged, so far as respects the transmission thereof by the Post, under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.

MARKS OR WRITING ON NEWSPAPERS.

Writing or marks are allowed on a Newspaper passing by Post between any one part of the United Kingdom and any other part, provided that a postage of one penny be paid, by means of a stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is

confined to writing or marks on the *Newspaper itself*, and is not to extend to the cover. Any writing or marks other than the address on which, or (if the postage be not prepaid as above) on the *Newspaper itself*, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

Newspapers posted in Town addressed to any part within the town delivery, charged, paid or unpaid, 1d.

Newspapers printed or published in any of the Channel Islands, or in the Isle of Man, and sent by the Post between any of such Islands and Great Britain or Ireland, or sent by the Post in Great Britain or Ireland, will be liable to the full letter rates of Postage, according to the scale for charging inland letters, with the exception of such as are printed in the *French Language*.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions, by her Majesty's packet-boats, free of the duty of Postage, provided the same be duly Stamped, made up open at the ends, and put into any Post-Office *within seven days* after the day of publication.

Newspapers may also be forwarded to the Colonies, by private ships, for a Postage of One Penny each, and to Foreign Countries for a Postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or Foreign Parts, to which they are despatched free, are delivered free of Postage. From places abroad to which they are *not* despatched free, they are charged on delivery, *Twopence* each; excepting those brought by the closed mail through France, which are charged *Threepence* or *Fivepence* each. *All newspapers must be printed in the language of the country from which they are sent.*

PRICES CURRENT AND COMMERCIAL LISTS.

Printed PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the Colonies and Foreign Parts at One Penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written or printed immediately above the address; and any other writing than such address, name, initial, or mark, for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of Postage.

Every Price Current to be forwarded within *seven days* after each publication; and no one can be forwarded a *second* time without being charged with full letter Postage.

All other publications, not strictly newspapers, published in the United Kingdom, *if duly stamped and under the weight of three ounces*, and folded so as to expose to view the newspaper stamp, will be treated as newspapers, and enjoy the newspaper privileges, *the sanction of the Postmaster-General having been previously obtained.*

Printed PRICES CURRENT and COMMERCIAL LISTS from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d. each, whether conveyed by Packet or by Private Ship.

Printed PRICES CURRENT and COMMERCIAL LISTS from any foreign country except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d. each.

Printed PRICES CURRENT and COMMERCIAL LISTS, from the British Colonies, passing through the United Kingdom, are liable to a Postage of 2d. each, to be paid at the time of being posted.

PRICES CURRENT and COMMERCIAL LISTS from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of 2d. each.

Printed PRICES CURRENT and COMMERCIAL LISTS to China, *via Southampton*, 2d. each; *via Marseilles*, 3d. each. From China, *via Southampton*, 3d. each; *via Marseilles*, 5d. each.

REGISTRATION.

Letters, whether containing Coin or not, can be registered on payment of a fee of 6d., in addition to the Rates of Postage, Inland, Colonial, or Foreign. On those to France, or passing through France, at double the usual rates of Postage. On those to Prussia, or passing through Prussia, the Prussian Registration Fee of 3d. must be paid in addition to the British. On those to Russia and Poland, *via* Belgium, an additional rate of 3½d. under ½ oz., 7d. under 1 oz., &c. Thus, for a letter not exceeding ½ oz., the charge will be ordinary Postage, 11½d.; additional Postage, 3½d.; British Registration Fee, 6d.; Prussian do., 3d.; total, 2s. A printed acknowledgment will be given to any person registering a letter. Registered letters will be taken at the Bar Window and the Receiving-houses within half an hour of the closing of the Box for the particular Mail by which they are to be despatched. Letters for Registration addressed to places within the United Kingdom, must be paid by affixing a sufficient number of Stamps, and the Registration Fee must be paid in Stamps; when addressed to parts abroad, they may be paid either in money, or by means of postage stamps.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post-Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and as long as they remain in the French territory, *if passing through France*.

The arrangements for carrying out the system of registration have been made with the view of insuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. *Parties transmitting Bank Notes, Bank Post Bills,*

Drafts, Jewellery, &c., should invariably secure their transmission by Registration; and persons having occasion to send by post small sums, are recommended to make use of

THE MONEY ORDER OFFICE,

which is open every week-day, fast-days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is 3d. on sums not exceeding two pounds, and 6d. on sums between two and five pounds. No Order will be given for sums beyond this amount; but if the sum to be transmitted exceeds five pounds, as many Orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an Order is payable is inconvenient, if the Order is receipted (his or her name written in full), and the person presenting the Order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person unless the Christian name of such person can be given by the party obtaining the Order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of *Firms* the initials only are required.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued (for instance, if issued in January, it must be presented before the end of March), otherwise a new order will be necessary, for which a Second Commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all.

After an Order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The Towns upon which Money Orders can be drawn are marked in the lists.

The Defenders are cited before this Court on an induciæ of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by poinding, sale, and imprisonment, when above £8. 6s. 8d. of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the county to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

Note.—The Act authorising Imprisonment for Small Debts expired in 1840 for sums under £8. 6s. 8d., excepting claims of aliment.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £12.

The first step is set forth in a complaint

or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families; or others whom the Court may authorise; but in no case by persons practising the profession of the law, or by Officers of Court, without special leave of the Court or cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decerned for in cases before Justices, and in cases before Sheriff by consigning 10s. of expenses, on applying within 3 months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing, on consigning 2s. 6d., if the case be before the Justices; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender, diligence may proceed against him by arrestment instantly; and by poinding, sale, and imprisonment, if above £8. 6s. 8d., at the end of ten days, before the Sheriff; and by poinding and sale instantly, before the Justices.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitor or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the

Sheriff, for making effectual arrestments; but in such actions both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of Justices or Sheriffs in such cases, by reason of privilege as a member of the College of Justice.

This Society was instituted 1st October 1827, on the principles laid down in the Highland Society's Report, and the Reports of the House of Commons, with an addition of 10 per cent. upon their tables; but having found this insufficient to sustain the Society, it was agreed on 1st July, 1846, that a reduction of the sick allowance should be made after nine months' continued ailment, with a further increase of 10 per cent. upon contribution tables. It has two departments, viz., 1st, The sick allowance, with a stated superannuation allowance, from the age of 65 to the end of life. 2d, Allowance at death; to any of which the members pay in proportion to their ages and the benefits required; and females are admissible to the latter department, the two being kept perfectly distinct.

WESTERN COLLEGIATE AND COMMERCIAL ACADEMY,

13 Albany Place, St. George's Road.

The above institution provides mainly for a thorough English and Commercial

Education, into which the Classical element may or may not enter, as the parents or guardians of pupils may think fit.

The course of instruction in the Latin language embraces a period of two, or at most three sessions, one hour per day, and is conducted so as carefully to subserve the English and Commercial course. Thus, pupils not intending to follow any of the learned professions may draw all the advantages to be gained from a study of the language, as aiding the acquisition of a knowledge of Natural Science in the higher branches of an English education, and enabling the Commercial pupil all the more easily and surely to master the Modern Languages.

Mr. J. Macpherson, Principal of the Institution, is responsible to parents and guardians for the educational management, and all other working arrangements towards carrying out effectively the course of instruction selected for pupils.

DEPARTMENTS.—English, Commercial, Classical, Mathematical, Foreign Languages, Fine Arts.

BRANCHES.—Reading and Elocution, Grammar and Composition, History and Geography, Original Composition and Logic.—Writing, Arithmetic, and Book-keeping.—Algebra and Geometry, Plane and Spherical Trigonometry.—Latin, Greek, Antiquities, &c.—French and German, Spanish and Italian.—Drawing and Painting, Piano-Forte and Singing, Fencing and Gymnastics, Dancing and Calisthenics.

The "Western Collegiate" is arranged for receiving Young Ladies, from five years of age and upwards; and while in all the departments a separate division is reserved for them, their educational course is the same as that of the Young Gentlemen.

An advanced finishing course, exclusively for young ladies, is formed yearly, early in the session, by the several masters in the various departments.

The session opens 1st August, and closes 15th June. Quarter-days—1st August, 19th October, 7th January, and 28th March.

The first division of the Elementary Latin Class is formed in August; the second division in October.

On the first institution of this Library,

life subscribers only were admitted to the privilege of taking out any of the books; but in the year 1848, the Directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by the directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned the late William Jamieson, jun., and James Bogle, Esquires.—The number of volumes in the Library is now about 13,000.

The Library is open daily from 10 to 4, and 7 to 9, excepting Saturdays, when it is closed at 12.

Life Subscription, £5 5s. Annual Subscription, 15s. the first year, and 10s. 6d. yearly afterwards.

In order to prevent, as much as possible, chimneys taking fire, the magistrates recommend to the inhabitants to get their chimneys swept every six weeks, and not to employ or admit to their houses, or to the roof thereof, any chimney-sweeper not having a badge, or who refuses to produce the same when demanded. The magistrates also recommend to the inhabitants to keep the hatchway, or other access to the roof of their houses, properly secured; and not to intrust the key to any chimney-sweeper who has not a badge, in order to prevent theft and destruction to property.

BILLETING SOLDIERS.

Soldiers on the recruiting service, &c., are billeted on the houses of the inhabitants, in regular rotation, with the following exceptions, viz., Parish Ministers and Schoolmasters, Faculty of Physicians and Surgeons, Faculty of Procurators, Widows, and Unmarried Ladies not in business, and who do not keep Lodgers, and Paupers.

IMPERIAL FIRE INSURANCE COMPANY,

1 OLD BROAD STREET, LONDON.

INSTITUTED 1803.

SUBSCRIBED AND INVESTED

CAPITAL, ONE MILLION SIX HUNDRED THOUSAND POUNDS.

FOR Insuring Houses and other Buildings, Goods, Wares, Merchandizes, Manufactur-
ing and Farm Stock, Ships in Port, Harbour, or Dock, and the Cargoes of such
Ships; also, Ships Building and Repairing; Barges and other Vessels on Navigable
Rivers and Canals, and Goods on Board such Vessels throughout Great Britain and
Ireland, and in FOREIGN COUNTRIES, from LOSS or DAMAGE by FIRE. The Rates
of Annual Premiums on the three ordinary Classes of Insurances are:—

Common, 1s. 6d.; Hazardous, 2s. 6d.; Doubly Hazardous, 4s. 6d.,

EXCEPT IN SPECIAL CASES.

The Rates for all Insurances not coming under the above heads, are fixed by
SPECIAL AGREEMENT.

No charge is made for Policies, Transfers, Alterations, or Removals.

IMPERIAL LIFE INSURANCE COMPANY,

INSTITUTED 1820.

CAPITAL, £750,000; PREMIUM FUND, £800,000.

A SCALE of Premiums on insurances for the whole term of life has recently been
adopted, by which a material reduction has been made at all ages below 50 years.
Four-fifths, or 80 per cent., of the profits are assigned to policies every fifth year, and
may be applied to increase the sum insured, to an immediate payment in cash, or to the
reduction and ultimate extinction of future premiums.

The following will show the effect of the Bonus on Policies of 30 years' duration, on
the 31st of January, 1851.

Age when Insured.	Sum Insured.	Annual Premium.	Addition to Sum payable at death.	Value of Addition in Cash.	Or Premiums extinguished and Cash Paid.
21	£1000	£22 5 0	£560	£276	£5
26	2000	49 1 8	1120	617	93
31	3000	81 17 6	1680	1027	282
36	4000	122 13 4	2240	1505	582
41	5000	174 7 6	2800	2043	992

One-third of the premium on insurances of £500 and upwards, for the whole term of
life, may remain as a debt upon the policy, to be paid off at convenience; by which means
£1,500 may be insured for the present outlay otherwise required for £1,000.

LOANS.

The Directors will lend sums of £50 and upwards, on the security of policies effected
with this Company for the whole term of life, when they have acquired an adequate
value.

SECURITY.

Those who effect insurances with this Company are protected by its large capital from
the risk incurred by members of mutual societies.

CLAIMS.

Since the commencement of the Company upwards of £1,000,000 sterling has been paid in claims and additions to the sums assured.

Insurances without participation in profits may be effected at reduced rates.

The assured are not charged with Policy, Stamp Duty, or Medical Fees.

N.B.—The attention of the public is invited to the 54th section of the Act 16 and 17 Victoria, cap. 34, by which an abatement of income tax is allowed on such portion of income (not exceeding 1-6th) as may be applied to the payment of premiums of assurance.

Life Assurance Business, in all its Branches, transacted on most favourable terms.

LIFE ASSURANCE, REVERSIONARY INTEREST, AND ENDOWMENT COMPANY,

No. 1 PRINCES STREET, BANK, LONDON;

And for Glasgow, Paisley, Greenock, and Neighbourhood,

Nos. 20 and 288 BUCHANAN STREET, GLASGOW.

ESTABLISHED AUGUST 1, 1837.

EMPOWERED UNDER A SPECIAL ACT OF PARLIAMENT.

CAPITAL, ONE MILLION STERLING.

GREAT ADVANTAGES OF THIS INSTITUTION.

THE Rates of Premiums are on the lowest Scale consistent with stability, and so varied as to accommodate the views of every class of insurers.

This Institution is empowered under special Act of Parliament, and so constituted as to afford the benefits of Life Assurance in their fullest extent to Policy Holders, and to present greater facilities and accommodation than can be obtained in any similar Establishment. Increasing and decreasing Rates of Premium on a new and remarkable plan have been constructed, peculiarly advantageous for securing loans or debts. By the former mode, a less immediate payment is required on a Policy than in any other Office, and the Amount of future payment optional with the Assurer.

The following important improvements on the ordinary system of Life Assurance have been adopted by the Britannia Company, and are recommended to the particular attention of the public:—

Age of the Assured in every case admitted in the policy.

All Claims payable in Three Months after proof of death, while other Offices take Six Months to consider this momentous question.

Medical Attendants remunerated by the Company in all cases for their reports, by which an important saving is effected to parties insuring.

No charge made for Policies or Admission Fees.

Policies revived without fine within Twelve Months after expiration, on evidence of unimpaired health, without payment of the FINE demanded by other Offices.

Premiums may be paid Half-Yearly or Quarterly, and Payments may be made to terminate after five, ten, or any other number of years required.

A Board of Directors in attendance Daily at Two o'Clock.

Thirty Days allowed for Renewal of Policies.

Ladies and others, to whom it may be inconvenient to attend at the Office, visited by one of the Medical Officers.

Assurances perfected on the same Day they are proposed.

This table exhibits at a glance a very important saving to the Insurer, fully adequate to insure AT ONCE one-third more principal sum than can be secured for the same Premium in Offices sharing Profits to be realised, and in which it should be borne in mind, that should the life drop prematurely, no Bonus would have accrued; consequently, the whole extra Premiums charged above the Britannia Company's rate would have been sacrificed, without yielding any commensurate advantage to the Insurer.

The BRITANNIA COMPANY prefer giving a direct and immediate advantage to the public by a fair reduction of rates, rather than inviting those to become partners who can have neither leisure nor inclination to understand or investigate their own rights. These advantages may be observed in the following Scale, where the absolute saving to insurers in the Britannia Company is made to appear, supposing the sum to be insured One Thousand Pounds at any of the following ages :—

Age of the Assured.	The Annual Premium on £1000 in Offices dividing profits.	Sum Assured in the Britannia Office for the same Premium.	Certain and immediate Bonus secured in the Britannia Company on a Policy of £1000.

* * * This table, as will be obvious from the following illustrations, presents New and Important Features in Life Assurance. (Vide the Company's Prospectus, which may be had gratis on application, either personally or by letter, to the Company's Agent as under.)

By this plan of Insurance the public are vastly inconvenienced, increased facilities afforded, and every possible contingency or disappointment anticipated for the protection of the Assurer, with less immediate payment for the first five years than in any other Office, and the amount of subsequent payments left optional with the Insurer, an important advantage not given to the Policy Holders of any other Company.

If the Life assured drops within the first period of five years, the Sum he receives is almost equal to a gratuity. If in the second, he derives still a considerable benefit; and if he should live even to the last period, he has, notwithstanding, made his Assurance on advantageous terms. Again, if the Assurer should become unable to advance his premium, or that it is inconvenient for him to do so, he drops into the alternate scale—namely, a proportionate reduction of the sum assured, whilst it is only fair to remind him, that in other Companies adopting the increasing Rates of Premium, no such alternative exists. The insurers with Offices adopting that principle, are called upon without any excuse or consideration of circumstances, to advance their premiums AFTER THE FIRST FIVE YEARS (when all accommodation has ceased), whether they are able to do so or not, otherwise their policies are forfeited, and all their previous payments lost to them for ever. The rate of reduction in the sum assured after the first five years, should the premium be not advanced, will appear by the following abstract, taking the sum assured at £1,000, the whole amount insured being payable by this Company, should death previously occur, without any deduction whatever:—

If the Insurer dies after the first period of five years, without increasing his Premium, it will be reduced one-eighth to.....	£875,	principal sum.
If he shall die after the second period of five years, without increasing, it will be reduced one-fourth to.....	£750,	ditto.
If he shall die after the third period of five years, without increasing his premium, it will be reduced three-eighths to.....	£625,	ditto.
And if he shall die after the fourth period of five years, without increasing his premium, it will be reduced to.....	£500,	ditto.

After this period, no further reduction can be made on the amount assured.

* * This Company assures the Lives of Officers and others travelling to, or residing in, any part of the world.

Emigrants to Australia and the Colonies may effect Insurances on their Lives at the lowest current rates, and every contingency affecting human life negotiated on equitable principles.

The progressively increasing patronage enjoyed by the Britannia Company during the past years (no doubt induced by the many important advantages it affords) renders it an imperative duty on the undersigned thus publicly to express his sincere acknowledgments to the public; and in soliciting a continuance of the same favours, he most respectfully begs to direct attention to the fact that, during the past years, the number of Policies issued have not been exceeded by any Life Office in the Kingdom.

* * Medical Officers (who are in constant communication with the Agent as under) have been appointed in the principal Towns throughout the Kingdom, with the view of affording the utmost expedition to Parties effecting Insurances, and to obviate the inconvenience of personal appearance at the Office.

The uniform promptitude and liberality observed in the adjustment of all claims on this Company, the extreme attention and expedition in effecting Insurances, guided by equitable and honourable principles, with the lowest and most accommodating rates of premium that stability can admit of, have deservedly obtained for this Institution such a decided preference over its numerous competitors.

Proposal Forms for effecting Insurances, Prospectuses detailing the many advantages of the Company, with every information respecting the Rates of Premium for Home and Foreign Insurances, Survivorships, Joint Lives, and every other contingency affecting human life, may be had on application to

PERSONS Assured for the whole term of Life, for £100 and upwards, will have an addition made to their Policies every *fifth* year (instead of every seventh as heretofore), or an *Equivalent Reduction* will be made in the future payments of Premium, at the option of the Assured.

Policies may also be effected for the whole term of Life by payments yearly or half-yearly, also by a limited number of yearly payments, a mode of Assurance which originated with this Company in 1816.

Assurances for Short Periods may now be effected in this Office at considerably reduced rates of Premium.

The *next valuation* will be made at Christmas, 1859; and Policies effected before that date will participate in proportion to the time they may then have been in force.

The following statement of *Sums paid* on various Policies (printed with the consent of the Representatives of the Claimants) will, it is submitted, confirm the very satisfactory result of the principle on which the Company's business is conducted, and exhibits the *Bonus* or *Additions* which attached thereto respectively, viz. :—

The Directors have the satisfaction of stating—

That the **INCOME** of this Branch for the year 1851 exceeded £166,000.

That the INVESTMENTS for the Life Policy-holders now amount to £1,382,108.

And as evidence of the advantage to Families of Life Assurance,

That the Company has disbursed, among 2,943 Claimants, from 1808 to the close of 1851, the sum of £2,476,897, of which a very *considerable proportion* was for ADDITIONS, under the system pursued by this Company.

Amongst the advantages offered by the Company to the Public are the following, viz. :—

That the Charges for carrying on this Branch of the Company's business are *very moderate*.

That the Interest and Dividends on the Life Fund are invested for the *sole benefit* of the Policy-holders, and, in like manner, the Profits arising therefrom after the Quinquennial Valuations, *without any deduction whatever*.

The following Table shows the *total additions* made to Life Policies for £1,000, effected in London or through an Agent in Great Britain, which had been in force for the Thirty-three Years ending at *Christmas, 1849* :—

BUSINESS IN SCOTLAND.

From special arrangements made for this Company, its whole business in Scotland will be so managed as to make it essentially a Scotch Office, while possessing all the influence, security, and Stability of the whole Company. In particular—

- 1st, The Policies will be granted and made payable in Scotland, so as to obviate the necessity, which is applicable to the Policies of other English Companies, in the case of Life Policies, of the representatives of the Insured obtaining at great expense Letters of Administration or Probates from the English Ecclesiastical Courts.
- 2d, This Company's Policies are also made transferable, according to the law of Scotland, by intimation to the Company's Officers there, thus avoiding the difficulties and insecurity of effecting transfers in England.
- 3d, All questions or disputes that may occur with the Company, in reference to its Scotch Business, if not settled by arbitration, according to the Company's Deed of Settlement, may be tried in the Scotch Courts of Law, if desired.

 The amount of Sums contained in Policies issued was 515,117 7 0

It will also be observed that the average amount of each Policy has been nearly £500—a result which, in the management of Life Assurance Institutions, is considered a very favourable feature in the transaction of business.

The Annual Premiums corresponding to the New Assurances amount to £16,650 0 2

The Amount of Claims by Death was..... £89,428 13 10
 And with Bonus Additions..... 5,932 7 2

THE BONUS YEAR.

The FIFTH DIVISION OF PROFITS will be made at 15th November, 1855, and all persons who now effect Assurances will secure a right to participate to the extent of One Year's Bonus, and obtain a larger proportional Share at future Divisions than later entrants. The Fund to be divided will be derived from the Profits which have arisen since 1850.

DIVISION OF PROFITS.

A very large portion of the Profits of this Company is allocated periodically to the Assured on the principle of a TONTINE. Divisions have already taken place at four periods, viz., 1835, 1840, 1845, and 1850.

According to the Tontine principle referred to, the measure of a Policy's claim for Profits increases at each Division, so that the party who protects his family by a Life Assurance has, at the same time, the benefit of participating in the profits of the business, according to his survivorship,—that is, the length of time he continues connected with the Institution.

The following cases, taken from the Books, will tend to illustrate the system:—

On 4th March, 1854, A. B. died at the age of 20, having effected an Assurance of £150 on 1st August, 1853, when in perfect health. The sum assured has been paid to the representatives; and it may be observed that only One Year's Premium of £1. 4s. 8d. was paid to the Company.

On 4th October, 1854, C. D. died, aged 32, having effected an Assurance on his life for £300, on 14th November, 1853, when he was in excellent health. His payment to the Company was £8.

These two cases show how complete and satisfactory such a provision is from the moment of a policy being effected. The following cases will further illustrate the benefits of the system with reference more particularly to Participation in the Profits:—

On 13th February, 1854, E. F. died, aged 64. He effected an Assurance on his life in 1828 for.....£300 0 0
And there was added by the Company from the Profits..... 218 14 0

Making the sum paid.....£518 14 0

On 20th March, 1854, died G. H., aged 57. He effected an Assurance on his life in 1829 for.....£995 0 0
And there was added by the Company from the Profits..... 629 16 8

Making the sum paid.....£1624 16 8

Such examples could be greatly increased by quotations from the books, but the above cases are sufficient to illustrate the great benefits and advantages of the system.

THE Company was established in 1823, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

MUTUAL ASSURANCE, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers.

NINE-TENTHS of the **WHOLE PROFITS** Septennially divisible among the Assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

THE NEXT DECLARATION OF BONUS takes place on 31st August, 1856, when all then Insured in Participation Plan will share in the division.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another.

All the advantages of an Annual division is thus given, without its attendant evils. THE MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class lives shall not suffer by any undue Bonus being paid away to those who may die early.

RATES OF PREMIUM EXTREMELY MODERATE.

The Non-Participation Scale is equivalent to a present Bonus of considerable amount when compared with most other Offices.

The system adopted by this Institution gives to the Assured every advantage Life Assurance is capable of affording; and the success with which it has been attended, arising from its extended connection and the safe and liberal principles on which it is founded, is sufficiently proved by the fact, that upwards of *Ten Thousand Policies* have been issued, assuring sums amounting to almost *Three Millions Sterling*. The Annual Income is £45,000, and the Accumulated Capital, the property of its members, is £125,000.

Policies issued for the year ending 20th November, 1854, have been *One Thousand Eight Hundred and Eighteen*.

ADVANTAGES OF THIS OFFICE.

1. Entire profits belong to the Assured.
2. No lawsuits—disputes, if any, settled by arbitration.
3. Any sum may be assured, from £25 to £5000, payable to the Member himself on attaining any fixed age, or at once to his representatives, in case of earlier death.
4. Arrears may be paid up at any time, within twelve months, upon production of certificate of health.
5. Policies indisputable, except for palpable fraud.
6. Loans advanced to Members on the security of their Policies, of Five Years' standing and upwards. The mode of procedure in such cases is easy and simple, entailing no trouble or legal expense, and many members have already availed themselves of the privilege.
7. A lower rate of mortality than in any other office in Great Britain.
8. Liberty to travel or reside in any part of Europe, in Canada, and in the northern part of the United States, without extra charges.
9. No entry-money or other charge. Policy stamp paid by the office.
10. Parties Insuring with this Society can deduct the annual premium on their own or their wives' lives from the assessment made upon them for income tax.

N.B.—The Temperance and Public Sections are kept in separate classes, and will each receive their own profits.

Prospectuses, also copies of the Fourteenth Annual Report, may be had at the BRANCH OFFICES, and at the CHIEF OFFICES in Edinburgh, Glasgow, Aberdeen, Manchester, Liverpool, London, Dublin, and Belfast.

LIFE DEPARTMENT.

THE Public are reminded of the advantages which this Company offers to Assurers,
some of which are subjoined:—

FIRST, Undoubted Security from a large accumulated fund from Premiums, besides
the Subscribed Capital.

SECOND, The Premiums under the Non-Participating Table enable a party aged 30

to open a Policy for £1,244 9s. 9d. payable at death, for the same premium that the Mutual Societies insure £1000, thus giving an immediate Bonus of £244 9s. 9d.

- THIRD, The Participating Premiums give the Assured a right to participate in the Profits to the extent of about 84 per cent.
- FOURTH, No Charge is made for the Policy Stamps.
- FIFTH, Parties insuring with this Company can deduct the Annual Premiums on their own and their Wives' Lives, from the Assessment made upon them for the Income Tax.
- SIXTH, No extra Premium is charged for residence in Australia, Van Diemen's Land, Cape of Good Hope, or America, north of 38 degrees North latitude.
- SEVENTH, Parties, on application, in terms of printed Forms to be had at the Office, may have their Policies declared indisputable after the lapse of five years from their date.
- EIGHTH, Liberty granted to the Assured, after five years from the date of their Policies, on application, in terms of the above, to reside beyond the limits of Europe without extra charge.
- NINTH, No Entry-Money.

The business done by the Company during each of the two past years nearly doubles the number of the Policies issued in the preceding year, and clearly shows that the public appreciates the benefits which this Old-Established Institution confers on those opening Policies with it.

THIS Office has been established for the last Twenty Years, during which period a very large amount of Fire and Life Business has been done in Scotland, and the increasing business of this Company is to be attributed to the numerous advantages and facilities it offers to the Commercial Community, as well as the LIBERALITY with which all its operations are conducted.

FIRE DEPARTMENT.

This Company issues Policies upon every description of Property, including Mills and Special Risks, upon the most favourable terms.

Insurances effected in all parts of the World, either through the Head Office or their Agents.

The several Foreign Agents have power to settle all claims for losses, thereby avoiding the serious delay resulting from the ordinary method of arranging with the Head Office.

Policies transferred from other Offices free of expense.

The Renewal Receipts of Fire Policies can be made to fall due at either the Scotch or English Terms.

LIFE DEPARTMENT.

In this branch of business this Company offers peculiar advantages, combining all the improvements in the mode of Insurance which experience has proved to be desirable, with the security arising from a large subscribed capital and an established business, and likewise the benefit the Life Policy-Holders derive from the profits accruing from the Fire Department.

Life Insurances are effected in all its branches, both at home and abroad, at the most moderate rates consistent with security to the assured, comprising

WHOLE LIFE AND SHORT TERM POLICIES.

INSURANCES FOR ADULTS, PAYABLE AT A STATED AGE, OR CONVERTIBLE INTO ANNUITIES.

ENDOWMENTS FOR CHILDREN, PAYABLE AT ANY PERIOD BETWEEN THE AGES OF 14 AND 21.

DECREASING OR INCREASING SCALES OF PREMIUMS.

ONE-HALF of the Annual Premiums for the first Five years may remain as a permanent charge upon the Policy, at Five per Cent. per Annum Interest:

One of the most advantageous plans of Insurance yet offered to the Public, and adopted by this Company, is that of allowing

ONE-THIRD of the Premium to remain unpaid until Death, thus affording the opportunity to Insurers of effecting a Policy for £1500 at the Premium otherwise required for £1000.

PARTNERSHIP POLICIES are issued on the Joint Lives of two or more Partners, to cover the Capital withdrawn in case of the death of either; and when effected on the principle of allowing ONE-THIRD of the Premium to remain unpaid during the whole term of life, the expense is trifling, and is a mode of Insurance strongly recommended, being a great benefit to the survivor, and frequently preventing much inconvenience: and this will also be found a desirable mode of Insurance to the

MARRIED. Joint Policies being issued on the above plan, the expense is considerably reduced, and a Policy for One-Half more secured. This important fact is also urged upon the consideration of those wishing to make a

MARRIAGE SETTLEMENT, a desideratum of the greatest importance to parties in all positions of Life.

There is one feature of Insurance that is not generally taken into consideration by the Commercial World, namely,—the desirability of covering the loss likely to be sustained on the forced sale of the Stock, at the death of the Owner. As, for instance, a Stock worth £1000, would not, in most cases, realize more than £700; and, therefore, were a Life Policy held for £300, the deficit would be covered at a comparatively small yearly outlay.

Persons desirous of discontinuing their Policies can have them converted into Absolute Reversions, provided they have been in existence for five clear years. For example, a Policy now in force for £2000, effected in 1839, on a life aged 41, could now be exchanged for one for £1030. 8s. Od., free from all further premiums. This plan is highly favourable to Insurers, as it prevents a serious loss being sustained by the sale of the Policy.

CREDITORS and others, having a *bona-fide* interest in Policies, can have them rendered indisputable securities.

This Company has Agencies established in all the leading towns and cities in the United Kingdom.

Prospectuses and all particulars can be obtained at the Office, or from any of the Agents of the Company.

THE distinguishing feature of "The Safety" is, that the Share-Capital will, in the first instance, be the fund out of which all expenses, except those of collection, will be defrayed. The Premiums will be invested, and will form an Assurance Fund, which will at all times be kept intact, and of an amount amply sufficient to meet existing liabilities. The surplus of assets over that amount will form the profit accruing to the Company.

The Business is divided into two departments:—The *General Department*, which comprises the granting of Policies for sums of £100 and upwards, the premiums on which are payable quarterly, half-yearly, or annually; and the *Industrial Department*, which comprises the granting of Policies for sums under £100, the premiums on which are payable weekly or monthly. The funds arising out of each will be kept perfectly distinct, and the bonus to the Policy-holder will be proportioned to the profits of the department to which his Policy belongs.

The Scottish Branch is so constituted as to afford to Insurers all the advantages possessed by any of the offices having their head-quarters in Scotland.

The Company undertakes to appear in Scotland, should any suit be instituted against them in the Scottish Courts.

The Company do not require Irish probates or letters of administration to be taken out on the lapsing of Life Policies issued in Scotland.

LIFE ASSURANCE.

THE system adopted by this Company gives to the Assured every advantage Life Assurance is capable of affording, and combines the benefits of Mutual Assurance with the guarantee of a Capital of One Million, fully subscribed, besides a large accumulated Life Assurance Fund. The whole Profits, after reserving *one-tenth* for the Guarantee, are divided amongst the Assured, each Policy drawing in proportion to the sum insured, and the number of Annual Premiums paid during the period of division, previous Bonuses being reckoned additions to the Sums insured, and, as such, entitled to participate. Thus, for example, a Policy of £1000, having £285, 16s. of previously-vested Additions, was at 31st December, 1851, ranked as a Policy for.....£1285 16 0 and had a further addition made to it of..... 112 10 3 and will, according to the principle of division above mentioned, be ranked at next investigation, on 31st December, 1858, as a Policy for.....£1398 6 3 The Profits are divided septennially, and a prospective Bonus declared in favour of such Policies as may become Claims during the septennial period, thus giving the advantage of an Annual Division without its disadvantages.

GENERAL FACILITIES.

1. Premiums moderately rated at all ages, and so adjusted as to suit the objects and convenience of parties; and the Sums insured may be made payable to the party himself on attaining a specified age, or to his heirs or assignees at his death; or, *alternatively*, to himself on attaining the specified age, or to his heirs or assignees, if he should die earlier.
2. No Entry-Money or other charge. Policy Stamps and Medical Fees paid by the Company, and Assignments of Policies registered free of charge.
3. ONE-HALF of the Premiums may remain on credit for the first five years; or ONE-THIRD during the convenience of the Assured, interest being paid on the portion on credit.
4. Bonuses may *at any time* be commuted for a Cash Payment, or applied in reduction of future Premiums, except in cases of Policies of less than five years' standing, issued on an ascending scale of rates; and on the Credit system, if the debt be not repaid.
5. Liberal allowance made for the surrender of Policies upon which three Annual Premiums have been paid, when parties wish to discontinue them, either by payment in Cash, or by granting a new Policy for a corresponding sum, free of Premium.
6. Advances made on Policies to the extent of their acquired value.
7. Permission to pass and repass in time of peace from one part of Europe to another, by Sea or Land; and no extra charge for residence in British North America, the Cape, Australia, and parts of the United States, nor License required, except for the Voyage.
8. Twenty-one days allowed for Payment of Premiums after they become due, and in the event of the Party dying, payment within Twenty-one days by the Representatives held sufficient for preserving the Policy.

SPECIAL ADVANTAGES.

1. On proof of age, Policies are declared *indisputable*, on any ground whatever, after the lapse of *five years* from their date, provided the Premiums, ordinary or extra, stipulated by the Policy be duly paid.

2. Certificates granted on application declaring Policies exempt from payment of extra premium for travelling or residing beyond the limits of Europe, or for entering into Military or Naval Service, and from the necessity of applying for License to do so, from and after the expiry of five years from their date, provided it shall be shown to the satisfaction of the Directors that the Assured have, at the time of the application, no intention or prospect of going abroad, or entering into Military or Naval Service.

By these arrangements the Policies of this Company are rendered more valuable as a family provision, or as a transferable security in money transactions, and more marketable when wished to be disposed of.

LIFE DEPARTMENT.

THE Directors of the NORTH OF ENGLAND INSURANCE COMPANY beg to call the special attention of parties about to effect Policies of Life Assurance to the following advantages offered by this Company:—

1. *Annual Bonuses.*—Bonuses are declared annually in April. The Bonuses already declared vary from one to ten per cent. on the sums assured, and exceed, in some cases, 62 per cent. on the Premiums. *All Policies issued previous to 31st December will share in the whole year's profits next April.*

2. Profits allocated may be applied in augmentation of the sum payable at Death, or in reduction of the future Premiums, or may be paid to the assured by an equivalent in present cash.

3. *Moderate Rates of Premium.*—The same Premium required by the older Offices for the Assurance of £1000 at age 25, will insure in this Office £1156 with Profits, or £1315 without such right of participation.

4. Policies purchased by the Company, and Loans granted thereon, according to their acquired values.

5. Claims are payable three months after proof of death. When the sum assured is under £300, the sum is payable one month after such proof.

THE Rates of Premium are those adopted by the principal Life Offices; the Rate without Bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence five years.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling deduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

In addition to this advantage which is now offered to the Policy-holders in this Office, an annual addition or bonus is made to each Policy in anticipation of the Quinquennial Division of Profits.

THE melancholy Shipwrecks (attended with so fearful loss of life) which have occurred even in the last twelve months, prove most emphatically the value of the system of Assurance presented by this Company. By payment of a Premium so small that all classes may avail themselves of the advantages offered, the Passengers by Sea, as well as the Mariner, may secure a certain provision for their families, should they perish through the dangers of the deep, and should they meet with an accident not of a fatal nature, this Company is bound by their Policies to allow

A LIBERAL COMPENSATION FOR SUCH INJURY,

in proportion to the amount insured; but in no case exceeding one-fourth of the amount payable in case of death.

The following particulars of some of the claims recently paid by the Company, illustrate the nature of several cases of personal injury for which compensation has been allowed, and prove more forcibly than any argument the value of Maritime Life Assurance:—

LIFE DEPARTMENT.

THE peculiar and distinctive features of this Society consist—In allowing no member, when unable to continue his payments, to lose the benefit of the sums which he has paid, and arrangement may be made to secure a Policy free from any future payments.

By making every Policy *absolutely Indisputable* under any circumstances, thereby rendering them negotiable instruments as security, and entailing no trouble or inconvenience on the survivors.

By making every Policy PAYABLE TO THE HOLDER by endorsement, by which means the expense and trouble of an Assignment are avoided. By this means a Policy may be negotiated with the same facility as a Bill of Exchange.

The Society is established on the just principle of Mutual Life Assurance, returning to the Assured, by way of Bonus, the surplus above the cost of the Assurance.

It embodies all the improvements of other Offices.

The Funds of the Society are employed in granting Loans to Members upon approved Security.

The Payment of the Premiums is arranged to suit the convenience of all classes of Assurers. One-half the Premiums for the first five years may remain unpaid.

The Assured are protected by a Guarantee Fund of £50,000, in addition to the Annual Income and Reserved Fund.

FIRE DEPARTMENT.

This Company Insures almost every description of Property.

Fifty per Cent. of the Profits returned *annually* to the Insured.

A LIBERAL and SYSTEMATIC CLASSIFICATION of RISKS.

EVERY REASONABLE ALLOWANCE made for improvements in the construction of Buildings.

RATES of PREMIUM charged for each Risk, as the circumstances of the case may justify, *and without regard to the tariff adopted by other Offices.*

N.B.—Persons insured in other Offices, who may be desirous of deriving the advantages of a Return of Fifty per Cent. of the Profits, can transfer their Policies to this Company without any expense, trouble, or inconvenience.

GLASGOW**LAND-SURVEYING CHAIN MANUFACTORY.**

ESTABLISHED 1824.

TO CIVIL ENGINEERS AND LAND-SURVEYORS.

ALEXANDER DICK,

Land-Surveying Chain and Safety Lamp Maker, and Plain and
Fancy Wire Worker,

10 BUCHANAN BUILDINGS, 105 STOCKWELL STREET, GLASGOW,

TAKES this opportunity again to return his unfeigned thanks to those Gentlemen who have honoured him with their kind favours since he commenced the above line, and hopes, by prompt attention to their orders, as heretofore, still to merit a continuance of their patronage.

A. D. would earnestly solicit the attention of those gentlemen who may not, as yet, have given his Chains a trial, to do so; being confident, from the flattering testimonials received from eminent practical gentlemen, in different parts of the three kingdoms, of their superiority, and besides being made of the very best Charcoal Springwire (nearly as hard as steel), he feels confident a trial is only necessary to prove them second to none now in use; and to prevent counterfeit, 'Alexander Dick, Chainmaker, Glasgow,' is on the middle teller or counter of those chains warranted. The following is an abridged list of his Prices, for Cash only.

Foot Link 100 Feet Chains.

100 feet long, 100 links, 200 round rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 11s. 6d. each; and with a set of No. 5 link, brass counters, 12s. 6d. each.

100 feet long, 100 links with long eyes and groov'd joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 19s. each; and with a set of No. 5 link, brass counters, 20s. each; but with filed joints, 19s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 17s. each; and with a set of No. 5 link, brass counters, 18s. each; but with filed joints, 17s. each.

A. D. would particularly recommend the Chains with long eyes and groov'd joints (being his recent improvement), as the neatest and best he makes, with 300 oval rings; warrants them not to crank nor twist up, and less liable to stretch than those with round-eyed links and round rings, being made in a superior style.

Scotch Surveying Chains, with or without the fractions, made only to Order.

Imperial or Link-Surveying Chains.

66 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 8s. 6d. each, and 8s., 7s. 6d. 7s., 6s. 6d., 6s., and 5s. 6d. each.

66 feet long, 100 links, with long eyes and groov'd joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 17s. each; but with filed joints, 16s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 15s. each; but with filed joints, 14s. each.

Imperial Link Mine Surveying Chains, with neat strong brass handles and copper swivels, with 10 links of brass wire at each handle, 19s. each, and with 10 links of brass wire also at the 50 and 60, 25s. each.

Surveying Chains made of cast-steel wire to any length, size of wire, or pattern, only to Order.

Large and small ring Swails, Planting and Holing Chains for the East and West Indies, made to Order.

Copper, Brass, Iron, and Steel Wire, oval link Clock-pitch, and Double-link'd twisted flat Chain, made to Order.

Davy and Common Safety Lamps made and re-covered.

Plain and Ornamental Wire Fence for Pleasure Grounds, and every other Article in the Line equally Cheap.

TEA,

COFFEE,

AND

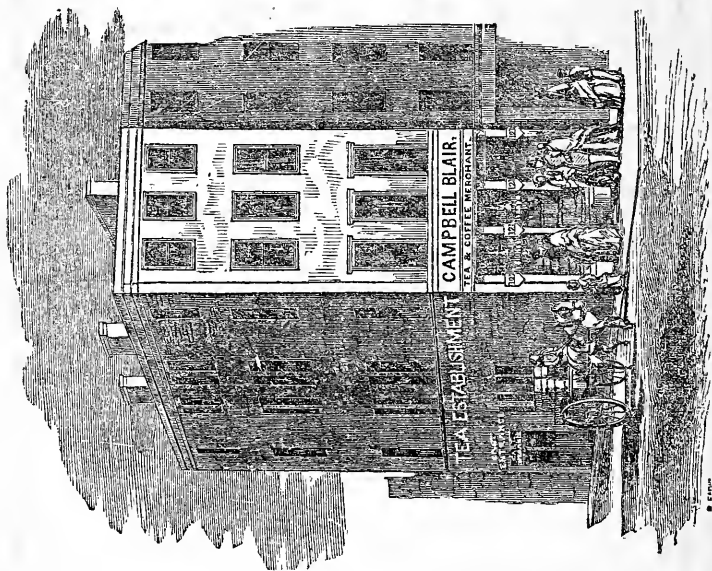

SUGAR

ESTABLISHMENT,

121

TRONGATE

GLASGOW.

THE Subscriber begs to intimate that he has taken those Central Premises, No. 121 TRONGATE, so long occupied by Messrs. WM. METWAN, SONS, & CO., in which the largest TEA AND GROCERY Trade in Scotland has for a long period of years been carried on—WHO HAVE RETIRED FROM THIS BUSINESS IN HIS FAVOUR—which he has had REMODELLED, elegantly fitted up, conveniently arranged for the despatch of business, and has RE-OPENED for the Sale of TEAS, COFFEES, CRUSHED AND REFINED SUGARS AND GROCERIES, by Wholesale and Retail. He respectfully solicits the favour of a visit and an order from all purchasers of those articles, which he engages to supply of the finest quality, and at the most economical expenditure of money on their part.

He will not make a long story, but simply wishes to state that he has resolved to conduct this Business—unless in special cases—in Cash transactions; and having a Ten Years' Lease of the Premises, he is quite alive to the bad policy it would be on his part either to sell a fine article at too high a price, or to give an inferior article at a moderate price. He has complete confidence in being able to satisfy every Purchaser, from the circumstance that he is a large Buyer, has had upwards of Twenty Years' practical experience in the Business, and is determined to devote the advantages resulting therefrom for the interest of those who may honour him with their patronage.

Besides about 25,000 LBS. TEA IN BOND, the STOCK ON THE PREMISES consists of SEVERAL THOUSAND LBS. OF TEA, about 3 TONS COFFEE, a few TONS CRUSHED SUGAR, and an army, if not of red jackets, certainly of blue wrappers, in the shape of HUNDREDS ON HUNDREDS OF LOAVES OF REFINED SUGAR, together with a full supply of other articles usually kept by a First-Class Family Grocer; but in these three—TEA, COFFEE, AND SUGAR—it will be his study to excel. With the feeling he can suppose an Artist to say to his friend, "Come and see my Painting or Statuary," he says to his Friends and the Public, "Come and see my Establishment," which judges have told him is not equalled in his line of business out of London, if in it; and he embraces this opportunity of returning his most grateful thanks to all his former Customers in Town and Country, to whose kind patronage he owes the opening of this Concern.

Waiting your commands,

am, your very obedient Servant,

CAMPBELL BLAIR.

P.S.—The Business at 21 Jamaica Street will still be carried on by me, as heretofore.—C. B.

COFFEE ROASTING, SUGAR POUNDING,
 AND
GENERAL GRINDING WORKS,

29 M'PHERSON STREET (*off HIGH STREET*), GLASGOW.

The only Steam-power Roasting Establishment connected with the Trade in the City.

D. MINTO begs leave to return thanks to the Grocers and Druggists of this Town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

P.S.—*All Orders punctually attended to, and delivered by his Vans at the proper time.*

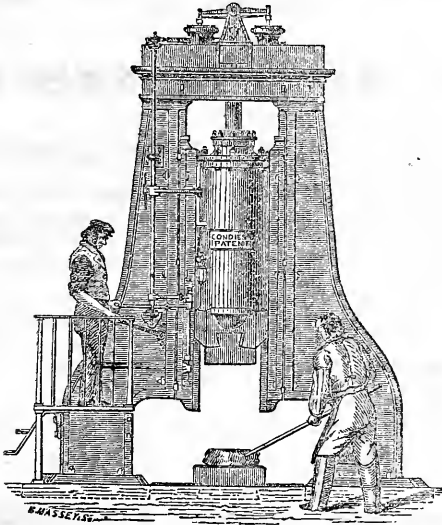

29 M'Pherson Street, off High Street,
 GLASGOW, *May, 1855.*

The COFFEE PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for, although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—“I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed, than when exposed to the fierce heat of a fire in a single cylinder.”

In the double rotatory globular method of roasting, as practised at Mr. MINTO'S Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

PATENT
DENTAL FORCEPS.

A. S. YOUNG & SON,
SURGEON-DENTISTS,
185 & 187 BUCHANAN STREET,
GLASGOW,

DESIRE to intimate that they have reserved to *themselves* the EXCLUSIVE USE in GLASGOW of JAMES A. YOUNG'S **PATENT FORCEPS**, which *cause the least possible amount of pain* in the extraction of ANY *Tooth or Root*, HOWEVER FAR DECAYED. This great desideratum is secured by the *many* improvements embraced in their construction; some of the more particular of which are—the heads of the beaks are opened at a sufficient angle to enable the operator to *see* the tooth or root during the whole operation, and the curve of the handles and the inclination of the beaks to the bodies of the instruments allowing them to be applied and freely moved in *any* direction. The beaks are made to embrace only the roots, and as every root, or combination of roots, is more or less wedge-shaped, therefore, when the apex of the wedge is represented by that of the root, or the approximation of the roots, the beaks of the forceps act so near as possible as highly polished inclined planes upon a moveable wedge, causing the tooth, root or roots, in many instances to slip or leap out of the mouth; but when the apex of the wedge is represented at the neck of a tooth by the shape of a part of the root, or by the junction of two or more roots, then the forceps secure a firm hold. These, with the other improvements, permit the application of the *smallest* amount of force in the *best* direction, and consequently (*cæteris paribus*) *reduce the PAIN to a MINIMUM.*

185 & 187 BUCHANAN STREET,
Glasgow, May, 1855.

JOHN FINLAY,
GENERAL FURNISHING IRONMONGER,
 46 BUCHANAN STREET, GLASGOW,
 AND RUMFORD WORKS, 33 GREAT HAMILTON STREET,
 INVENTOR AND PATENTEE OF THE
IMPROVED RADIATING STOVE GRATE, &c.

THE above sketch shows a sitting-room where one of the Patent Grates is fixed. The gentleman is in the act of adjusting the door or damper. This is done by pushing the door back or drawing it forward, and thus opening or shutting proportionally, and with one movement, the upper and lower escape apertures for the products of combustion. The lower draught at C is what is technically called a back flue; from its position it draws the disengaged gases either through or right over the burning fuel, which thereby become inflamed, making a cheerful blaze, and thus dispelling or consuming all smoke. From the powerful radiation of heat obtained by this grate, and the perfect command over the chimney draught, its economy follows as a matter of course.

In summer, fire-places in general present a dreary, forlorn aspect, by their wide open appearance. Now, this grate is shut by simply drawing forward the back, making the fire-place look smaller and less empty; and giving the apartment a finished appearance by its elegant and simple form. The fire-draught being thus easily shut, all currents down the chimney are avoided, and all dust, soot, or back smoke is confined within the vent. Where apartments are ventilated, this is the only grate with an open fire with which it can be accomplished in a scientific way, without producing cold currents or lessening the heat of the apartment. In the annexed sketch, the lady is shown adjusting the induction above the door. This invention J. FINLAY has now extensively applied with perfect success, together with Moore's Patent Glass Inductions, for Stair Windows, Greenhouses, Conservatories, Churches, Chapels, and Public Buildings, for which he is the Sole Agent.

Sole Agent for POOLEY'S CELEBRATED WEIGHING MACHINES, adapted for Banks, Warehouses, and Shops, for Platforms, Carts, or Waggon, wherever accuracy is required.

FOR PREVENTING INCRUSTATIONS, AND REMOVING SEDIMENTARY DEPOSITS

IN

STEAM BOILERS.

WALKER'S

DOUBLE PATENTED PURIFIER,

MADE APPLICABLE TO

**STATIONARY, MARINE, LOCOMOTIVE,
AND ALL OTHER BOILERS,**

MANUFACTURED BY

C. WALKER, ENGINEER,

ROCHDALE ROAD, BURY, LANCASHIRE.

C. WALKER respectfully submits to the notice of parties using Steam Power, the above-named Apparatus, as the most efficient hitherto devised for the purposes which it is intended to serve.

The injurious character of calcareous incrustations adhering to the plates of Steam Boilers is too well known, and the calamitous effects resulting from them are too frequently witnessed to require comment. Impeding the transition of heat, they at once detract from the evaporative effect of the fuel, and induce the rapid dis-integration of the boiler plates. Their ultimate consequences may be briefly stated to be "Waste of Fuel," "Diminution of the Strength and Premature Decay of Boilers," and "Explosion." These evils may be obviated by the use of the *Double Patented Purifier*, which prevents the adhesion to the boiler plates of the calcareous and mineral salts, precipitated from the water. Independently of the advantages resulting from its use, in the economy of fuel and preservation of the boiler, the cost of its application is compensated in a short time by the saving effected in the labour and expense otherwise inevitably incurred, for the purpose of removing, from time to time, the accumulations of injurious matter deposited from the feed water.

C. WALKER would also call attention to the simplicity of the *Patented Double Purifier* as requiring no alteration, and which can be made to suit Boilers of every description, and in any diversity of form: being placed outside, it can be applied by any one in a short space of time, and requires a very trifling expense after application.

The merits of this valuable invention can be vouched for by numerous and respectable parties who have practically tested its efficiency.

THE PATENT BLOW-OFF VALVE FOR STEAM BOILERS,

in connection with the above Apparatus, may also be applied.

Parties wishing to apply this Apparatus, are requested to communicate with

NEIL M'CALLUM,

PARKINSON'S

PATENT GAS REGULATOR,
BURY, LANCASHIRE.

A VARIETY of apparatus have of late been brought before the public, for the purpose of giving one uniform pressure of Gas to the burner. The complication of some, and the liability in others to go out of order, have determined Mr. JOHN PARKINSON, of Bury, Lancashire, to lay before the public an invention embracing all the qualities necessary, combined with simplicity, for carrying out such a valuable and useful object.

It has long been the opinion of the most eminent Gas Engineers, that there is one uniform pressure under which Gas should be supplied to the burner, and when that pressure is exceeded, a large amount of Gas escapes unconsumed, thereby impregnating the atmosphere in mills, dwelling-houses, public buildings, &c., destroying paintings, gilding, books, and, above all, that invaluable boon—health. This evil may be avoided by using the above simple and economical invention.

Practical experience has proved that the greatest illuminating power may be obtained from Gas, at a pressure of about one-half inch column of water; and as one-eighth of an inch above this pressure is equal to 14 per cent. in consumption, it necessarily follows that within a distance of 30 miles of a radius round St. Paul's, or the same distance round the Manchester Exchange, where five thousand millions of cubic feet are consumed, the saving effected would amount to seven or eight hundred thousand pounds annually.

Messrs. Chambers, of Edinburgh, commenting on the advantages arising from uniform pressure, state, that the difference in consumption would be 14 per cent. for each eighth of an inch. Thus, in a mill or manufactory, say of six stories, each ten feet above the other, with a pressure from the main of 6-10ths of an inch, and the altitude between the highest and lowest lights being 50 feet, the Gas in the highest, or sixth floor, would issue from the burners with the pressure of 11-10ths, the fifth 10-10ths, the fourth 9-10ths, and so on; thus greatly increasing the consumption in the higher floors over the lower ones, with corresponding disadvantage to the consumer.

The Patentee, in introducing his Regulator, feels assured that the public will find it a most useful means of obtaining a uniform pressure of Gas and illuminating power, with an economy corresponding to previous irregularity.

Parties wishing for further particulars, or to apply the Apparatus, are requested to communicate with

THE ONLY BATHS OF THE KIND IN GLASGOW.

Season Tickets at a reduced rate for the Baths to be had at the Establishment.

THE GREAT LUXURY OF THE AGE IS THE VAPOUR BATH.

Its advantages are many:—

- 1st.—*It is a pure wash, much more so than water; it cleans out most effectually; the Warm Water Bath after it carries off what the Vapour has brought out; then the Tepid and Cold Shower following, forms the most agreeable luxury imaginable.*
- 2d.—*Being administered under Medical surveillance, it removes many complaints, and supersedes a vast deal of drugging and physicking.*
- 3d.—*It is the cheapest, quickest, and most certain remedy for Cold, Rheumatism, and pains in any part of the body.*

Every Bath is in a separate and distinct compartment, and quite private, ensuring the utmost comfort combined with elegance. The rooms are all well ventilated; the water is heated with steam, rendering it pure and soft for the skin. To avoid the evils attending the use of Lead and Zinc Baths, the Proprietor has introduced Porcelain, Marble, and Welsh Slate Baths. All medical and scientific gentlemen are aware that Baths lined with Lead and Zinc are not so good; that cutaneous, or skin and other diseases have been communicated by their use; besides, it is a most difficult matter to keep them clean.

THIS STAMPING PRESS has been produced to meet the very general objection to the common Endorsing Stamps, &c., with which Fluid Ink is used, where much inconvenience is caused by the drying or caking of the Ink, which renders the production of a correct and satisfactory impression very uncertain. NEW ENDORSING PRESS

Is a Self-acting Apparatus, adapted for the Desk, Counter, or Writing-table; *it is very portable, and easily worked by the hand*—the Stamping action of the Machine brings continually a fresh supply of Colouring Matter to the Stamp or Type, so that there is no interval of time wasted between the successive impressions, and the Press is always ready for use.

Among the many purposes to which this Press is eminently adapted may be mentioned, the Endorsing of Cheques, &c., the Stamping of Prices Current, Share Lists, Bills of Lading, Accounts, Prescription Wrappers, Cards, Letters, Books, &c.
